ecospecifier's role is:

- ✓ To provide a third party, independent and unbiased assessment of information provided by manufacturers and other sources.
- ✓ To assess products using known Australian and International Standards, independent test data, third party research and expert opinion.
- ✓ To determine if products are eco and health preferable based on the premise that:
  - they exhibit one or more eco or health preferable characteristic compared to other products in their category; or
  - they are a member of a product category that is in itself an eco or health preferred category; and
  - they do not contain 'significant' ecological or health damaging content.
- ✓ To ensure that products meet ecospecifier's assessment methodology.
